Dr. Harry F. Wilson,
Industrial Hygienist,
State Board of Health,
925 Main Street,
Columbia, S. C.

Dear Dr. Wilson:-

I have your letter of November 17th and beg to say that I have now received authority from the Head Office to have the survey made at our Plant at North Charleston upon the understanding that as far as the results of this survey are concerned they will be reported in accord with the standard practice of the United States Public Health Service, that is to say that they are not available for any purpose whatsoever except public health information and that the identity of the plant and of the employees examined are not disclosed to the public or any one except ourselves to whom I understand a copy of the report and findings will be furnished for our information.

Yours very truly,

GENERAL ASBESTOS & RUBBER DIVISION
of Raybestos-Manhattan, Inc.
