Mrs. J. R. Shobert
Box 263
Texline, Texas 79087

Dear Mrs. Shobert:

I'm sorry to hear your husband is ill. I would like to help in any way I can, however, with more than 5000 different paints manufactured by Du Pont, it would be a monumental job to review all our paints to determine if they contain harmful chemicals.

If you will let me know what types of paints your husband uses, (does he use house paints, automotive enamels or lacquers, refinish enamels or lacquers, industrial finishes or some other type of paint) I will have our medical personnel examine the formulas to determine if they could cause the symptoms described in your letter. Ideally, it would help if you could obtain the code number and name of the paint actually used.

I hope your husband is feeling better by now.

Very truly yours,

William W. Miller
Toxicity & Pollution Control Coordinator
