Free of per- and polyfluoroalkyl substances (PFAS)

Dear customer,

Please be informed that our product **LUBRODAL F 25 AL (our article number CP1000899)** does not contain per- and polyfluoroalkyl substances according to the formulation.

Per- and polyfluoroalkyl substances are not intentionally added in the manufacture of our **LUBRODAL F 25 AL**. Although our product is not routinely tested for the presence, based on the product composition knowledge said compounds are not expected to be present. However, the fact that they are not intentionally used does not exclude that trace levels may be present as a result of the specific characteristics of the raw materials and / or of the manufacturing process.

For any impurity not in the context of the formulation we are not contractually liable.

We therefore consider **LUBRODAL F 25 AL** free of PFAS.

If we can be of further assistance, please do not hesitate to contact us again.

Best regards,
Product Safety
