 File

SHAC has been requested to review the practice of opening vessels for non-entry inspections without blinding. Please complete the following questionnaire and return to Rufus Baca at SS-18 by March 25, 1983.

Do you open any vessels in your area without blinding for non-entry inspections?

If the answer is Yes, please attach the procedure used.

If your answer is No, do you feel that vessels can be opened safely for non-entry inspections without blinding? If so, state procedure that you would follow.
