

(Drislane - Purcell)

1 I wouldn't remember it.

2 Q And you mentioned Rite Set Manufacturing Company;
3 what did they make?

4 A I have no idea.

5 Q You indicate that Inland Manufacturing Division of
6 General Motors joined as an associate member in 1950. Do you
7 know what the Inland Manufacturing Division manufactured?

8 A They made -- let me think -- primarily passenger
9 car brake linings.

10 Q Then you indicate that Mr. Miller, Frank Miller of
11 Raybestos-Manhattan who had previously chaired this technical
12 committee that was responsible for most all of the work of
13 the Institute, he was the next elected president from 1951 to
14 1953 of the FMSI; is that correct?

15 A It has to be correct. Look I will tell you what I
16 did. There was a whole bunch of pictures on the wall of
17 people who were presidents. I took them and they had the
18 dates that they were presidents, so I took something and I
19 wrote something about each one of them.

20 Q Okay. You also indicate that a Mr. Fred Weyburne
21 ~~of Bendix was vice president during Mr. Miller's presidency;~~
22 is that correct?

23 A Yes.
