EXECUTIVE SECRETARIAT

AUG 30 11 30 AM '95

RECEIVED

Dear Mr. President,

As a woman living with ovarian cancer, I urge you to use your influence with the

Food & Drug Administration to APPROVE the request for carcinogenic labeling of talc products, Docket Number 94P-0420/CP 1.

Numerous studies over the past 60 years have proven that there is a link between the use of talc products in the genital area and the incidence of ovarian cancer.

Information of any kind is difficult to come by regarding ovarian cancer.

Women need information, and labeling of talc products is one way to raise awareness of and increase protection from this killer disease.

Please urge the Food & Drug Administration to APPROVE the request for carcinogenic labeling of talc products, Docket Number 94P-0420/CP 1.

Do it for your wife, daughter, and all female members of your family. This deadly disease could strike them at any time. Don't you want them to be informed and protected?

Sincerely,

Ginnie Lupi
