Eden Avenue
Cincinnati 19, Ohio

Dear Bob:

When you can find the time, I hope very much that you will let me have your views on our proposed educational motion picture on plumbism, of which a copy of the preliminary outline went to you with my letter of May 18.

The response of the authorities whose opinions I have asked has thus far been gratifyingly enthusiastic, but the project will be so costly that it must be backed by every ounce of ammunition that I can muster, and a favorable expression from you would of course have great weight with our Board of Directors.

Sincerely yours,

P.S: I was sorry to miss out on a few words with you after the Atlantic City "Smog" session. If I could hold forth "off the cuff" to half the effect that you did on that occasion, I'd consider myself quite a lad.
