Dr. Robert A. Kehoe
Kettering Laboratory of Applied Physiology
University of Cincinnati
Eden Avenue
Cincinnati 19, Ohio

Dear Dr. Kehoe:

I am enclosing a letter to Mr. Webb, President of the Ethyl Corporation, from the Acting Surgeon General, with the request that you submit it to him.

I wish to join my voice to the rest of our committee in saying that the material which you prepared as the subject matter for this letter was certainly a fine job and all that will be necessary to satisfy the Ethyl Corporation and its subsidiaries.

With further reference to the publication of this material in the Public Health Reports, do you think that it should be published as a letter to Mr. Webb, or just the substance of the letter that was prepared, without the salutation and the closing paragraph. I do not suppose that Mr. Webb would have any objection to this procedure.

Sincerely yours,

/s/ J. G. Townsend, Medical Director
Chief, Industrial Hygiene Division

JGT DLH

There is no copy of the original letter in my file. It was forwarded to Mr. Kaley, who replied to it. Copy can be obtained from Mr. Kaley or Mr. Webb. The attached material is the agreed upon form of the regulations as adopted at this time. *Type under copy for Kaley, Webb, etc.*
R.A.K.
