Mr. H. M. Werner

IMPORTED ZINC 30% LEAD

cc: Mr. E. Schulte, U. C.
Mr. P. C. Herzog, Elmwood
Mr. J. P. Harner
Mr. J. W. Ford
Mr. W. C. Bivans

We have just been quoted a price of \$.11 per pound, FOB New York on the above product. We have not had a sample of it, but it appears that this would be a rather cheap price for this kind of material.

I do not know whether a thing like this would have implications in specification products, but I am mentioning it to you and to Mr. Bivans so that you know that possibly a 30% leaded zinc is available at somewhat cheaper price than the leaded zincs we are purchasing at present.
