PLAINTIFF'S EXHIBIT

GP-1565

In response to your note on Page 2 of Mr. Fink's memo of March 25 concerning labeling of containers, please see the attached memo from Jim Hurd to Ken McCaw of our legal department.

As you can see, this is being handled by Matt Fink, our advertising department and legal and new labels should be sent to you shortly.

Per our conversation yesterday, I have been in touch with Matt Fink and have given him instructions to submit to you all the information necessary to give proper evaluation of our joint systems products so that you may determine proper wording, proper type size, proper color, etc., for caution labels for hazardous materials. Matt will submit this information to you Monday or Tuesday of next week. When you have established proper labeling for these products, please advise Chuck Martin in Advertising.
