Andy

Do you know the person Ryan is referring to below?

Cheers!

Mike

Research and development funding in the 2018 US Farm Bill

Monday, December 11, 2017 | 8:30–9:15 AM

AEI, Auditorium | 1789 Massachusetts Avenue, NW | Washington, DC 20036

In their newest report, Vincent H. Smith and Philip Pardey discuss transactional politics, research and development funding, and the US Farm Bill.

Description

The share of US Department of Agriculture (USDA) spending directed to food and agricultural research and development (R&D) has fallen dramatically to less than 3 percent of the agency's total budget in fiscal year 2017. As a consequence of these shifts in USDA spending priorities, the US has lost significant global R&D ground with large agricultural economies. In their newest report, Vincent H. Smith and Philip Pardey discuss transactional politics, R&D funding, and the US Farm Bill.

Join AEI for the latest installment of our Agricultural Policy in Disarray Series to learn more about the importance of R&D funding in the US Farm Bill.
