Dear Mr. Baieo:

Per your conversation with Mr. R. J. Samelson, enclosed are two sets of PPG's literature on Vinylidene Chloride: manuals, and Material Safety Data Sheets.

PPG urges you, and it is your duty, to pass the enclosed warnings and information along to your employees, customers, handlers, or users of this product. The same principle applies to any product made by you from PPG products.

Even though PPG is furnishing this information to you, it is not necessarily all-encompassing; therefore, it is recommended that you should consult with knowledgeable people of your choice in order to determine whether your safety programs and warnings are adequate and/or in compliance with any applicable laws or regulations.

Very truly yours,
