Subject: Benzene / shoe industry paper

Patsy,
Earlier in the year you sent me a folder containing information received from API concerning the proposed Shanghai study (- probably dated June or July).

Included in the package was a paper dealing specifically with conditions/exposures prevalent in the Chinese shoe manufacturing industry. Unfortunately, I cannot locate my original. Grateful if you would send-on another version direct to Geert and Gauke. Thanks and regards,

Tony Mallett,
HSE Toxicology Adviser and
