DOC#: TALC069

DOCUMENT DESCRIPTION: Letter to the US House of Representatives from Barry Castleman

May 15, 1972

Mr. Paul S. Sarbanes
Congress of the United States
House of Representatives
Washington, D.C. 20515

Dear Mr. Sarbanes:

Enclosed is my continued correspondence with Dr. John Gowdy of the Food and Drug Administration, on the subject of regulation of asbestos- and talc-containing consumer goods.

One thing is clear to me at this point: the FDA is either unable or unwilling to take regulatory action; and, I don't think we should have to await another 40 years of mortality studies to know the degree of hazard to which the public is now being exposed.

Mr. Sarbanes, I urge you to use your influence to see that something is done about this situation. Of course, I will be glad to discuss it at length with you or members of your staff at your convenience.

Sincerely,

Barry Castleman
