Dear Bob:

As I reported to you by phone today, we have completed our analyses of (1) water sent to Dr. Crow at Georgia State for biodegradation testing and (2) Hudson River water sampled below the Ft. Edward plant. PCB concentrations, reported as Aroclor 1016, are given in the following table:

Identification	Concentration (ppb)
Water Sent to Dr. Crow	
"A"	23
"B"	3200
Hudson River below Ft. Edward	1.2

Please let us know if we can be of further assistance.

Sincerely yours,

James P. Mieure
