Dr. E. F. PENDERGRASS
2400 SPRUCE STREET
PHILADELPHIA

December 21, 1938

Professor Philip Drinker
55 Shattuck Street
Boston, Mass.

Dear Phil:

What do you think of the following program for the meeting which is to be held in Philadelphia on Sunday, January 22nd:

1. Call to Order.
2. A General Survey of the Asbestos Industry, and its Engineering Problems.
Professor Philip Drinker
3. Experimental Pathology concerning Asbestosis.
Dr. Leroy U. Gardner
4. Luncheon.
5. Clinical and Roentgenological Survey of the Asbestos Industry.
Dr. R. R. Sayers and Dr. W. C. Dreessen
6. Discussion of the Pathology in Patients dying with Asbestosis.
Dr. James Bell Bullitt
7. Discussion of Roentgen Studies in Individuals having Asbestosis.
Dr. J. Rush Shull

This, as you see, gives us a full day. At what time shall we start the meeting, at ten o'clock or earlier, and for how long shall we carry on? I am providing a luncheon for those in attendance at one of the nearby hotels or restaurants. Please let me know whether you think it would be wise to serve drinks at the luncheon. It might help to get a little dust out of the atmosphere.

With best wishes, I am
