FROM: G. M. Brown

SUBJECT: TOOLING ESTIMATES

Please furnish estimated cost to design and build the following:

1. One (1) Corbustos Perforating Die for inline 42" wide with standard progression length.
2. One (1) Corbustos Perforating Die for inline 42" wide with as long a progression as tonnage of press will allow.
3. One (1) low prong single sided die for the inline 42" wide by as long a progress as tonnage of press will allow. (To be used for Victocor 160)
4. One (1) low prong single sided die for the Victocor 300 inline 12" wide by as long a progression as tonnage of press will allow. (To be used for Victocor 170)

I would appreciate your answer as soon as possible.
