

March 28, 1947

Dr. Thomas F. Mancuso, Chief,
Industrial Hygiene Division,
State Department of Health,
Columbus 15, Ohio.

Dear Dr. Mancuso:

I am sending you herewith a copy of a memorandum, which I think will be self explanatory, in large measure. However, I have written to Dr. Heering, and have also sent him a copy, and I am also sending a copy to Dr. Andre of the Industrial Commission.

The occasion for this action is that this is a rather unusually serious lead hazard, and we feel that it is about time something was being done about it.

Cordially yours,

Robert A. Kehoe, M. D.

RAK ef
