

Diverter, back draft, 479
 Domestic oil burners, 506
 Domestic supply,
 hot water, 512, 659, 721
 control, 292
 water, 645
 Doors,
 air leakage through, 134
 coefficients of transmission of, 127
 natural ventilation through, 88
 Down-feed piping systems, 548, 549, 550, 552, 790
 Downward system of air distribution, 360
 Draft, 463
 available, 466, 473
 back, diverter, 479
 dimensions, 480
 calculations, 463
 capacity, 465
 equation, 473
 gage, 778
 head, 790
 intensity required, 474, 487
 losses, 474
 in chimneys, 476
 through fuel bed, 474
 mechanical, 464
 natural, 463
 theoretical, 466
 towers, 229, 230
 Drain connections, 458
 Draw-through heating units, 171
 Drawing, symbols for, 804
 Dripping of steam pipes, 597
 Drum dryers, 740
 Dry-bulb temperature, (*see Temperature, Dry-bulb*)
 Dry return, 791
 Driers, 741
 adiabatic, 741
 agitated, 740
 batch, 740
 compartment, 740
 continuous, 740
 cylinder, 740
 design, 750
 drum, 740
 festoon, 740
 high temperature, 755
 induction, 740
 intermittent, 740
 rotary, 740
 spray, 740
 tower, 740
 tunnel, 740
 vacuum, 740
 Drying, 731, 739, (*see also Regain*)
 adiabatic temperature, 741
 air circulation in, 745
 combustion, 747
 by conduction, 741
 constant temperature, 742
 control operation, 741
 circulation, 741
 by convection, 741
 design, 750
 direct contact, 741
 equipment for, 745
 estimating method, 757
 factors influencing, 743
 gas combustion constants for, 751
 high temperature, 744, 755
 humidity in, 744
 humidity chart, 746, 747
 low temperature, 744
 mechanism of, 742
 methods of, 739
 omissions in the cycle, 742
 by radiation, 739
 stages of moisture diffusion, 742
 constant rate period, 742
 falling rate period, 742
 sun, 739
 temperature in, 744
 time of, 745
 materials, 748
 vacuum, 726
 ventilation phase, 753

Duct, ducts,
 air, 363, 432
 design of, 363, 369
 equal friction method, 369, 371
 velocity method, 369
 for air distribution, 347
 air velocities in, 392, 435
 circular equivalents, 372
 construction details, 380, 391
 design of duct systems, 369, 378, 390, 432
 humidity measurement in, 783
 lining factor for sound, 342
 noise transmission through, 342
 pressure loss in, 364
 elbows, 364, 393
 for recirculated air, 415
 resistance, 393
 sheet metal for, 380, 391
 sizes of, 367, 371, 385
 temperature loss in, 175, 412
 temperature measurement in, 778
 velocity measurement in, 780
 Dust, 83, 295, 791
 air speeds to convey, 392
 catching devices, 301
 collectors, 393
 concentration in air, 307, 784
 counter, 784
 disposal of, 303
 industrial exhaust systems, 383
 measurement of, 784
 Dynamic equilibrium Carrier's equation for, 2

E

EDR, equivalent direct radiation, 796
 Effective temperature, (*see Temperature, Effective*)
 Elbow, elbows,
 design, of, 432, 636
 equivalents, 607
 loss of pressure in, 364
 resistance in, 393
 sheet metal used in, 391
 welding of, 634
 Electric, electrical,
 automatic control system, 278
 central fan heating systems, 718
 control, motor, 761
 current, as corrosion agent, 642
 heat equivalent, 725
 heating, 715
 auxiliary, 723
 cost of, 724
 cost of insulation, 725
 of hot water, 721
 heating elements, 256, 715, 716
 with unit heaters, 718
 lamp bulbs, heat from, 151
 motors, 761
 Eliminator plates and baffles, 217
 Emissivity, 708
 Enclosures,
 concealed heaters, 538
 convectors, 538
 effect of, 537
 unit air conditioners, 261
 Engines,
 Diesel, 226
 internal combustion, 225
 Enthalpy, 22, 791
 Entropy, 28, 775
 Equations, conversion, 801
 Equilibrium,
 dynamic, 2
 hygroscopic, 730
 Equipment room, design of, 341
 Equivalent, equivalents,
 circular, 372
 direct radiation, 150, 601, 796
 elbow, 607
 evaporation, 451, 791

Equivalent, equivalents (*continued*)
 heat, 801
 of air infiltration, 140
 of brake horsepower, 151
 electrical, 725, 802
 mechanical, 794
 length of run, 4
 square feet, 575
 estimating fuel consumption, 521
 Eupatheoscope, 711, 723, 786
 Evaporation, 232
 equivalent, 451
 from human body, 58, 80
 from water pans, 538
 Evaporative cooling, 185, 195, 197, 219
 Evaporators, 37
 Exfiltration, 131, 173, 521
 Exhaust systems, 383
 efficiency of, 395
 flexible, 390
 industrial, 383, 390
 lateral, 389
 Expansion,
 of joints, 585, 689
 of pipe, 585, 627, 689
 in steam piping, 689
 tanks, 617
 Exposure factors, 150

F

Fan, fans, 317
 as accessory apparatus, 718
 A.S.H.V.E. test code for, 320
 attic, 271
 booster, equipment, 187, 424
 control of, 327
 designation of, 329
 drives, arrangement of, 328
 for drying, 326
 for dust collecting, 327
 dynamic efficiency of, 319
 efficiency of, 319
 in electrical heaters, 718, 723
 furnaces, 411, 437
 for gas-fired furnaces, 514
 for industrial exhaust systems, 395
 mechanical draft, 464
 mechanical efficiency of, 319
 motive power of, 329, 761
 control of, 761
 operating characteristics, 319
 operating velocities, 325, 326
 performance of, 317, 325
 quietness of, 245
 ratings of, 324
 selection of, 324, 327, 329, 395, 436
 static efficiency of, 319
 system characteristics, 323
 systems of heating, 169
 tip speeds, 324
 total efficiency of, 319
 types of, 317, 321, 325, 424
 in unit conditioners, 261
 in warm air systems, 424, 430
 Fatigue, human, 60
 Filter, filters, 303, 310
 automatic, 312
 cloth, 394
 design of, 310
 dry air, 313
 installation of, 313
 resistance of, 430
 for sound, 342
 unit type, 310
 viscous type, 310
 Fire walls, 391
 Fittings, 623, (*see also Connections, Pipe*)
 areas of, 632
 copper, 633
 flanged, 636
 lift, 556
 screwed, 632
 welding, 639, 640

Flame, with oil burners, 507, 509
 Flanges, welding neck, 639, 640
 Flexible materials, 339
 Floors, heat transmission through, 121
 Flowers, temperatures for greenhouses, 737
 Fluid, fluids,
 cooling of, 225
 formula for flow of, 363
 meters, 696
 Foodstuffs,
 regain of moisture of, 730
 temperatures and humidities for processing, 734
 Force, 792
 Forced-air heating system, design, 434
 Forge shops, heat given off in, 91
 Formulae,
 conversion, 801
 heat transmission, 101
 Foundries, heat given off in, 91
 Freezing,
 of cooling water, 232
 insulation against, 679
 Friction,
 of air in pipes, 366, 367
 in chimneys, 468
 coefficients, 367
 factors, 427
 heads in pipes, 606
 in heating units, 172
 losses in ducts, 365, 367, 371
 in water pipes, 653
 Fuel, fuels, 483, (*see also Anthracite, Coal, Coke, Gas, Lignite, Oil*)
 bed, draft loss through, 473
 burning equipment, automatic, 497
 consumption, 521
 oil, heating value, 752
 requirements, 522
 degree-day method, 523
 theoretical method, 522
 utilization of, 521
 Fumes, 295, 792
 industrial exhaust systems, 383
 toxicity of, 299
 Fundamentals of heating and air conditioning, 1
 Furnace, furnaces, 792
 capacity, 417
 design of, 417, 446, 428, 434, 491
 door slot openings, 486
 hand-fired, 491
 performance curves of, 419
 ratings of, 437
 types of, 427, 437, 514
 volume, 792
 for warm air systems, 427, 47
 Furnacestat, 433

G

Gage, gages,
 draft, 778
 pressure, 777, 792
 steam, 457
 vacuum, 777
 Galvanometer, 778
 Garage, garages,
 air flow necessary in, 92
 A.S.H.V.E. ventilation code, 96
 heaters for, 516
 Gas, gases,
 burner control, 290
 calorific value, 151, 493
 constant for dry air, 8
 in chimneys, 467
 flue, analysis, 784
 fuel,
 manufactured, 493
 natural, 493
 properties of, 494
 scrubbers, 303
 toxicity of, 299
