ATT'N OF: Mr. W. S. Ferguson DATE: January 23, 1976

SUBJECT: PERSONNEL EXPOSURE TO P.V.C. (Update of Memo - November 4, 1974)

To the best of our knowledge, the following personnel still employed by Allied have been exposed to either polymerization of vinyl chloride and/or working with PVC compound for a period of one (1) or more years. These people receive periodic special medical examinations for vinyl chloride exposure from our Medical Department.
