Mr. I. A. Deutch,
Office of Air Pollution Control,
808 N. Spring Street,
Los Angeles 12, Calif.

Dear Mr. Deutch:

It was a privilege to see and talk with you about your work, and I sincerely hope that we shall have an opportunity to follow through on it and to see what is being done at first hand.

I regret very much that neither Dr. Ashe nor I can visit you at once, and it seems very unlikely that either of us can be there in September of this year. Despite our very acute interest, we are both burdened with more work than we can do and our responsibilities are such that we cannot drop what we are doing to look into something else. However, I think you can count on a visit from some member of our Laboratory staff at some time in the not too distant future. We shall certainly be glad to maintain the relations now established and to co-operate with you in every possible way.

Very truly yours,

Robert A. Kehoe, M. D.
