DOCUMENT DESCRIPTION: Letter to Johns-Manville RE New Type of Lacquered Jacket

January 11, 1935

Johns-Manville Sales Corp.,
22 East 40th Street,
New York City.

Mr. C. H. Hall

Dear Mr. Hall:

Please accept thanks for your letter of the eighth and we note your progress on the lacquered jacket. I see no reason why an improvement such as you mention could not be incorporated in our merchandising plan for flexible jackets if you are successful in producing such a jacket that we feel would be an improvement over what we are now making.

For your information, we are submitting at this time a License Agreement to Keasbey & Mattison for their consideration and I believe we have reached the point where they will either sign an Agreement or discontinue making a flexible jacket.

With the kindest regards, I am

Very truly yours,

President
