ATT: Robert A. Kehoe, M. D.

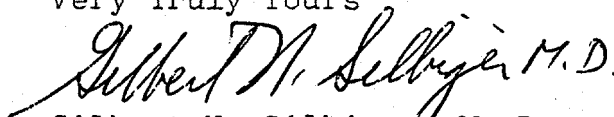

Dear Dr. Kehoe:

Thank you for your enlightening letter of
February 25, 1963.

The industrial plant to which I referred is
yet under construction and it would not be
possible at this time to give you the in-
formation requested in your letter. I have
taken the liberty of discussing the contents
of your letter with the plant manager and it
is his feeling that since we are not certain
of the conditions at present that we would
postpone any studies or interpretations.

I wish to thank you for your consideration
and your time in answering my letter.

Very Truly Yours

Gilbert N. Silbiger, M. D.
