(6) Procedures to Be Employed

- (a) The friable asbestos insulation materials shall be stripped from vessel and piping in place. The weather-proof covering will be removed and the exposed asbestos material will be wetted. The wetted asbestos material will be promptly removed and placed in fiberboard drums lined with heavy-weight plastic bags. Filled drums shall have plastic liner bags tied tightly at the top, lids installed, warning labels affixed in accordance with the regulations, and stored, adequately protected from weather, pending transportation to an approved disposal site or facility.
- (b) As sufficient asbestos wastes are accumulated, they will be transported by truck to Texas Ecologists, Inc. at Robstown, Texas, for final disposal.

If you have any questions concerning this matter, please contact C. H. Rivers at 713/476-7667.

Very truly yours,
