Dr. Reuel A. Stallones, Dean
University of Texas
School of Public Health
P.O. Box 20186
Houston, TX 77225

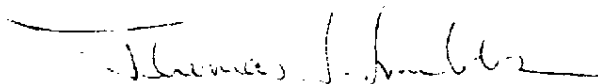

Dear Dean Stallones:

In 1983, with the assistance of Eric LeBrocq and the Texas Occupational Safety and Health Educational Resource Center, the Gulf Coast Section, American Industrial Hygiene Association was able to co-sponsor three continuing education courses for local professionals in the safety and health field.

Due to the efforts of Eric and the availability of the UTSPH resources, these courses were very successful from a participation standpoint. Also, although not an initial goal, these courses were successful from a financial standpoint. As a result, the Gulf Coast Section, AIHA would like to contribute funds back to the ERC for the discretionary use of Dr. Edward J. Fairchild in the continuing education program.

As chairman of the section's continuing education committee, I would like to invite you, or your representative to attend our next meeting the evening of March 8 to receive our gift of approximately \$2100 to the ERC. I look forward to hearing from you and will provide further details concerning the meeting at that time.

Sincerely,

Thomas G. Grumbles, C.I.H.
Chairman, Continuing Education Committee
