Ron: This is the fax
I sent to your facility
in Texas. FAX

TO: Brigid Wood FROM: Meredith Scheck
RE: Data Request DATE: 3/12 #/PAGES: (plus cover)

COMMENTS:

You should have before you two forms:

1. OSHA Recordable Incidence Rate Data: These calculations include the information for calendar year 1992 as reported to the federal government. The return form is a "gold" color.
2. Annual Environmental Recognition Program.
The response form is "green". I hope that the following is helpful.

ROL Exceedances = The number of times the level specified in 40 CFR 61.64(a)(2) was exceeded as determined by 40 CFR 61.67 (g)(5).

An "RVCM exceedance" is defined as the number of times the levels specified in 40 CFR 61.64 (e)(1)(i) and (ii) were exceeded.

For Calendar Year 1991, the numbers submitted for Dow were as follows:

Environment

Freeport 90

Plaquemine 88

OSHA Recordable

Freeport (1) - 3.15

Freeport NPA - 6.25

Plaquemine II - 0

Plaquemine EDC - 5.0
