## **Gov. Scott: Tax Cuts Will Boost Economy and Benefit Florida Citrus**

**NAPLES, Fla.** – Today, Governor Rick Scott made the following statement regarding the United States House of Representatives passing tax cuts. The Governor is applauding the House for also including Representative Vern Buchanan's Emergency Citrus Disease Relief Act to help Florida citrus growers.

Governor Scott said, "It is great news that Washington is following Florida's lead by cutting taxes for families. In Florida, we have cut taxes more than 80 times saving families over \$7.5 billion, and today is an important step to return money back to Americans. It is also great news that the U.S. House of Representatives included Congressman Vern Buchanan's proposal for tax relief for Florida's citrus growers. Hurricane Irma decimated this iconic Florida industry and I have continued to advocate for months for funding to help Florida's citrus industry fully recover. I look forward to the Senate's passage of tax relief."
