14. Product Information

Following this page is a proposed "Interrogatory Response Sheet" and definitions, examples and instructions dealing with the completion of this question.

For each and every asbestos-containing product, which generic product type has been previously identified in exposure sheets in this circuit, with which you were involved, as previously identified in responding to the previous interrogatory, please answer the following.

A separate response is to be provided to this question for each and every asbestos-containing product with which the responding defendant was involved.

If different entities were involved with the same asbestos-containing products the asbestos-containing product is to be addressed in a response to this question for each such business entity, including the answering defendant if applicable.

*For example if pipe covering is a generic product type that has been previously identified in exposure sheets filed in this circuit, then the answering defendant is to provide information regarding all types of pipe covering manufactured, sold and/or distributed by defendant regardless of whether a specific types of pipe covering manufactured, distributed and/or sold by defendant has been identified in exposure sheets in prior litigation in this circuit. In contrast if ironing board covers are a product that have not been identified in exposure sheets filed in this circuit then the defendant need not provide information regarding this product type.
