Dear Dr. Kehoe:

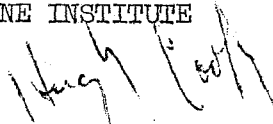

Thank you for your letter of April 18. With regard to paragraph two of your letter, I did not mean to imply that the present day capsules were an alloy. I believe that many of them are sandwiched construction--aluminum--lead--aluminum, and in addition may be coated.

Assembling information on this project may be a bit slow but I should have some information for you in a month or so.

Regards.

Very truly yours,

WINE INSTITUTE
