INTER-OFFICE CORRESPONDENCE

Industrial BIO-TEST Laboratories, Inc.

FROM: JP

DATE: March 17, 1971

TO: JFV

SUBJECT: Monsanto Company
IBT Nos. P7297 & B7298

cc: OEF, MLK, PLW, DS, LH

Please schedule the following additional microscopic studies for IBT No. P7297:

1. Submit all slides from Fo and F_1 parental animals to Dr. Richter for examination. These slides have already been read by Dr. Suckow.

2. Prepare sections of urinary bladder from all F_2 parental animals which have not been previously examined. Dr. Richter should evaluate these sections.

Special care should be taken during autopsies of postmortem rats from IBT No. B7298 in order to assure gross evaluations and preservation of bladder tissue. This should include bladder tissue even if autolysis has occurred.
