

Notes from a chart paper too large to reduce/copy

ISSUES

- Surrogate exposures
- Confounding factors
- Case-control vs. cohort
- Power
- Site concordance & human experience (Ra11)
- Diagnosis
- "Human experience"
- Scientific limitations in general

CONCLUSIONS

- Some strong +
- Some (not confirming)
- Limitations

B2

BULLET-ESE

- No single study
- In toto > inadequate
- "Human experience" (Intuitively troubling but scientifically inconclusive)
