

YOUR HOUSE NEED PAINT?

THEN REMEMBER—

BOTH ENDS of the paint brush are important

LOOK to both ends of the paint brush if you would beautify your house and protect it completely. Put a master painter on the handle end to apply the paint as only he can with his skill and experience. Let his partner, pure lead paint, be on the other end to provide a long-lasting weatherproof paint film.

You'll find this combination where

ever you find a painter with a long-standing reputation for fine, honest, conscientious work. The master painter knows from long experience what is best for both exterior and interior painting. And today, as in years past, he uses pure lead paint made with Dutch Boy white-lead. On it and his own skill he has built his reputation.

Dutch Boy white-lead is sold by paint dealers everywhere.

Write our nearest branch for new booklet on painting—"The House We Live In."
