New Appointments to Foundation Committees

New appointments have recently been made to the Foundation's Medical, Engineering and Chemical Committees for 1948.

Dr. E.H. Carleton, Medical Director of Inland Steel Company and Dr. L.C. McGee, Medical Director of Hercules Powder Company, have been appointed to the Medical Committee. Meanwhile, Dr. O.A. Sander was elected Vice Chairman of the Committee and Dr. A.G. Kammer, Medical Director of Carbide and Carbon Chemicals Corp. was named Medical Consultant to the Foundation's staff.

The following have been appointed to the Engineering Committee: F.S. Kriger, Manager, Plant Engineering Department, Corning Glass Works, and D.L. Shelly, Works Engineer, Westinghouse Airbrake Company.

F.C. Flint of Hazel-Atlas Glass Company has been appointed to the Chemical and Toxicological Committee.

The Foundation's Committees are performing increasingly useful services for member companies through their assistance to the Foundation's staff.

Course in Industrial Ventilation and Dust Control

W.C.L. Hemeon, Head Engineer on the Foundation's staff, will give a course in industrial hygiene engineering during the second semester at the University of Pittsburgh. Classes will be held Monday evenings for 16 weeks, starting February 16. Objective of the course, which is being given for the third year, is to:

"Provide plant engineers with basic engineering principles that apply to practical problems of industrial ventilation."

Only graduate engineers are eligible for admission to the course.

Summaries of Conferences

Summaries covering the Chemists Conference and the Engineering Conference, held in connection with the last annual meeting, are now being mailed to Members and Subscribers. The summaries covering the Medical Conference and the Legal Conference are about completed. These will be mailed within a few days.

How Well Can Management Predict?

This is an article by Dr. William A. Hamor, Assistant Director at Mellon Institute, which appeared in the December, 1947 issue of ADVANCED MANAGEMENT. Reprints are available to members.

KEYNOTE SPEAKER

Mr. Vincent P. Ahearn, Executive Secretary, National Industrial Sand Association, will be the keynote speaker at the Foundation's 18th Annual Meeting to be held at Mellon Institute, Pittsburgh, on November 18 and 19. He will speak at the General Meeting on November 19, which emphasizes management aspects of industrial health. Mr. Ahearn has long been associated with the Foundation and is the Secretary of the Board of Trustees.

NEW BOARD MEMBERS APPOINTED

Two new members were elected to the Board of Trustees, Mr. E. V. Murphree, President, Standard Oil Development Company, New York, will fill the vacancy created by the death of Mr. J. W. McLaughlin; Mr. W. R. Elliot, Vice President - Industrial Relations, Jones & Laughlin Steel Corporation, Pittsburgh, replaces Admiral Ben Moreell (USN Ret.), who recently retired from the Board.

REPRINTS AVAILABLE

Reprints of a paper by Mr. W. C. L. Hemeon, Engineering Director of the Foundation, on "Progress in Air Pollution Control" are available. The paper was published in the Proceedings of the Annual National Planning Conference, entitled "Planning, 1952."

Reprints are also available of a paper on "Typical Examples of Noise Reduction in General Motors Corporation" by Jack Ogden. The paper was presented at the Engineering Conference of the 17th Annual Meeting of Industrial Hygiene Foundation on November 19, 1952.

18th ANNUAL MEETING, Nov. 18-19

at Mellon Institute

Pittsburgh, Pa.
