SUBJECT : MOBIL OIL COMPANY
PYDRAUL AC

REFERENCE :

TO :

ELMER WHEELER
ST. LOUIS

Would you please write directly to Mr. Robert M. Jackson, Chief Engineer, Mobil Oil Company, 612 South Flower Street, Los Angeles, California 90054, with a carbon copy to me, giving all of the toxicity data we have on Pydraul AC. He is interested in the specific information we may have.

Particular interest is the toxicity data on vapor inhalation. It seems he has gotten an inquiry from a company that compresses air for underwater diving apparatus and they were inquiring about air containing small quantities of AC and its toxic effect.

Thank you,

F. T. N.

Frank T. Nemits
