SUBJECTS DISCUSSED

ALL CRACKS

Oxygen and acetylene cylinders must be secured in an upright position or in cart. Replace safety caps when not in use.

Used lumber shall have nails withdrawn before it is piled, unless it is to be built without further handling.

All personnel shall continue to sign in and out when working in the Bright Anneal Room. Remember - NO SMOKING. No open flames.

When coming down scaffolding, all nails should be immediately withdrawn from the floor.

Pick up all asbestos blankets and return to the laborers tool room.

Keep your shirt on - it may save you from sunburn, acid and steam burns, weld splatter or cuts.

HEAD HATS SHALL BE WORN AT ALL TIMES. This includes: WORKERS, VISITORS, GUARDS and personnel in the construction area.
