FDA APPROVAL OF LACQUER FORMULAS

All ingredients in 1395 Clear Lacquer are approved for use in food contact adhesives under Section 121.2520 of the Code of Federal Regulations. All ingredients except dibutylphthalate are also approved for use in resinous and polymeric coatings under Section 121.2514 of the CFR. Alternate plasticizers which are approved under 121.2514 include diethyl phthalate, diisooctyl phthalate and dibutyl sebacate.

I will inform you of the FDA status of 63081 as soon as I get the complete formula.
