HAIR SPRAY FORMULATIONS CONTAINING VINYL CHLORIDE

Ref.: Ltr. FT Reed-BJO'Brien, 6-9-65

On the basis of past events, I think it would be best if you stored the retain samples until we hear from Toni about their reshipment from St. Paul. I presume Dr. O'Brien would be receiving all the samples that St. Paul will package for the joint study.

P.S. Thanks for the "trade samples", Fred. They were quite useful in my talk. I am returning them separately.
