

Firestone

A

Dear Mr.

The results of the following tests from the recently conducted Health Maintenance Program are now completed.

Physical Examination

Blood Tests

Urine Tests

Pulmonary Function Tests

X-rays

I have thoroughly reviewed all aspects of your current examination and would recommend that you see your family doctor concerning:

If you have any questions regarding your health profile in general or of this specific finding in particular, please do not hesitate to call me or tell your family doctor that I will be glad to talk with him about it. I want to remind you that with your written permission I will send this information to him.

In my opinion and in the light of current knowledge on the subject the above finding has no relationship to your working in a Vinyl Chloride Regulated Area and your health does not appear to be endangered by continued work in such an area.

Sincerely,

Laurence H. Barron, M.D.
Medical Director
