Subject: follow-up on LNG conversion meeting

Ryan,

We're grateful for the meeting recently about TOTE's efforts to convert its container vessels from diesel to LNG, which will make the US the world leader in pioneering the use of this environmentally-responsible maritime design. We were truly appreciative of the time you and Administrator Pruitt took to learn about and discuss the issue.

Do we owe you any follow-up items coming out of the meeting, or is there anything you need from us? Obviously we'd welcome any updates you can share regarding the options and hopeful path forward that was discussed regarding the permit process. I've been asked to circle back with you on behalf of all who were involved to ask, and hope you don't mind.

Please don't hesitate to call me at 202-536-7600 at any time. Grateful for any guidance you may have, and for your service to our country.

Dave Schnittger
