

ter. points out, however, that the public cannot be properly as a prop for the political play was simply left to the dramatic interest, remained with the lives.

by showing individuals, ed by passion or by false al ideals, in conflict avegal rational truths. hakespeare secured his effects," Phillips says.

ter Realism

ANAPOLIS (A) — The lers Club, an amateur ing group, believes in settings. A play it put he Night of January has a courtroom for a So the club obtained county criminal court on a theatre.

E EARTH IS ROUND, observable proofs that it is round are: During se of the moon, the shadow on the moon is men have traveled the earth; the sinking w of ships as they sail sea; and, as we travel rd, stars in the north ward the horizon, and come into view in the skies.

They also are acutely conscious that 1940 is the year of them have painted scenes in voting booths. Others have drawn pictures of President Roosevelt, Dewey, and other familiar political figures.

Marie Paley, who originated the idea of a national exhibition of children's paintings, says of this concentration on headlines: "Children are keenly alive and sensitive to what is going on in the world.

"With the world in the state it is today, it is not surprising that war subjects have come in. Children hear about the war at home; they study current events at school; they read the newspapers, listen to the radio news, see the newsreels, and naturally it all sinks in and makes an impression."

The fact that children are painting in terms of headlines, she thinks, a good sign. For they are bound to be thinking of them. "And painting is a purge for their worries," she says.

SCIENCE IS SEEKING TO DETERMINE WHAT MAKES GOOD PLANE PILOT

DENVER (A) — Medical science still seeks an answer to the question of "what makes a good airplane pilot tick?"

"Is a tall, husky man a better pilot than a short slender man?" asked Dr. Michael L. Mason of the Northwestern University Medical School at a Denver medical meeting.

Is one type of man better qualified to fly at an altitude of 25,000 feet than another man?

"I suppose some of the answers will be obtained through the trial and error method."

He said the answers would simplify the problem of the Army Air Corps, which examines applicants for army flying jobs.

Occasionally, a man will pass

the most rigid physical examination, do brilliant work in the ground school and then "flunk the course" when he takes to the air simply because he can't stand flying.

ASPARAGUS FESTIVAL

Isleton will hold its annual Asparagus Festival May 18-19, celebrating the principal crop of the region. Features will include a parade, sports events, outboard races, and tours of canneries.

The average annual apple harvest in the United States in recent years has been about 150,000,000 bushels.
