Subject: October 16 meeting request - Administrator Pruitt

Sydney,

You were kind enough to facilitate meetings with Administrator Pruitt earlier this year for Brad Wall, Premier of Saskatchewan, and Tim McMillan, President of the Canadian Association of Petroleum Producers. We also represent Suncor, a Canadian oil company which is North America's fifth largest energy company. Suncor's President and CEO, Steve Williams (bio below) will be in Washington on October 16 and would very much like to meet with Administrator Pruitt. The purpose of the meeting would be for Suncor to gain a better understanding of President Trump's regulatory priorities relating to energy and the environment. I believe that given Suncor's size and role in the energy sector in Canada and the United States, a meeting between Mr. Williams and Administrator Pruitt would allow for a very high level dialogue on these issues.

While the bulk of Suncor's production of 700,000 barrels per day is from the oil sands in Alberta, Suncor also has offshore assets in Canada, the United Kingdom and Norway. Suncor also owns a 98,000 barrel per day refinery in Commerce City, Colorado, along with Canada's largest ethanol plant in Ontario.

Please do not hesitate to let me know if I can provide any further information. I very much appreciate your consideration of our request.

We look forward to hearing from you and hope to see Administrator Pruitt on October 16.

Thank you.

David

Steve Williams

President and Chief Executive Officer

Steve Williams is president and chief executive officer of Suncor Energy Inc.

Steve's career with Suncor began in May 2002 when he joined the company as executive vice president, Corporate Development and chief financial officer. He then served as executive vice president, Oil Sands and chief operating officer. Steve has more than 40 years of international energy industry experience, including 18 years at Esso/Exxon.

Steve holds a Bachelor of Science degree (Hons.) in chemical engineering from Exeter University and is a fellow of the Institution of Chemical Engineers. He is a graduate of the business economics program at Oxford University as well as the advanced management program at Harvard Business School.

In 2016, Steve was named to the Board of Directors of the new Alcoa Corporation. He is a Board member of the Business Council of Canada, is a member of the Institute of Corporate Directors and is also a member of the McKinsey & Company Canada Advisory Council. In 2014 and 2015 Steve acted as co-chair of Indspire's "Building Brighter Futures" campaign, which provides financial support for Indigenous students.

Steve has long been an advocate for sustainable development in the energy industry and a leader in conversations that connect the environment and economy. In 2005 he was appointed to the National Roundtable on the Environment and the Economy by the Prime Minister. He has also been a member of the advisory board of Canada's Ecofiscal Commission since its inception. He is one of 12 founding CEOs of Canada's Oil Sands Innovation Alliance (COSIA) and he was invited to attend the 2015 United Nations Climate Change Conference (COP21) in Paris, France as an official member of the Government of Canada delegation.
