

IN REPLYING
ADDRESS THE SURGEON GENERAL
U. S. PUBLIC HEALTH SERVICE

FEDERAL SECURITY AGENCY
U. S. PUBLIC HEALTH SERVICE

WASHINGTON 14
(BETHESDA STATION)

June 19, 1946

Dr. Robert A. Kehoe
Kettering Laboratory of Applied Physiology
University of Cincinnati
Cincinnati 19, Ohio

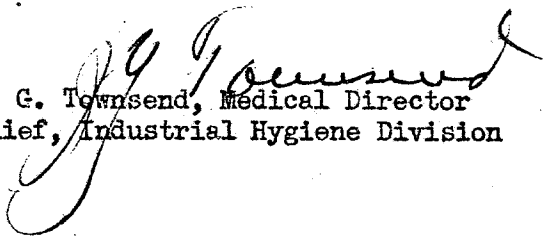

Dear Dr. Kehoe:

Thank you for your letter of June 15, enclosing the draft of "Changes in the Regulations for the Sale and Distribution of Gasoline Containing Tetraethyl Lead".

I have submitted copies of this material to the members of the committee for their information and comments, and as soon as I hear from them I will let you know. Personally, I think the suggested regulations are quite in order, and should take the form of a letter to the President of the Ethyl Corporation from the Surgeon General, for distribution to the various customers of the Ethyl Corporation.

What do you think of having this material published in the Public Health Reports?

Sincerely yours,

J. G. Townsend, Medical Director
Chief, Industrial Hygiene Division
