Dr. George Calingaert,
Ethyl Corporation,
1600 West Eight Mile Road,
Ferndale 20, Detroit, Mich.

Dear Cal:

In reply to your letter of June 27 on gasoline burning appliances I am inclined to feel that it is advisable to investigate the two appliances referred to in your letter and in Mr. Scales' memorandum. It may be that examination of the equipment and precise determination of the manner in which they work, will show that further investigation is unnecessary. In any case, the equipment should be seen in action, I should think.

Sincerely yours,

Robert A. Kehoe, M. D.
