In the Spanish Mode TEXTURED FINISHES

made with DUTCH BOY WHITE-LEAD

PURE WHITE-LEAD
for generations the standard in
decorating exteriors and interiors,
now also used for plastic paint
finishes of modified texture

WITH white-lead and oil plastic paint, architects may have side wall decoration in perfect keeping with the mode of the room—be it Spanish, Old English, Colonial or French Renaissance.

This plastic paint, or "plastic lead" as it is sometimes called, gives the modified or low-relief type of texture and lends itself readily to the production of all manner of interesting and appropriate texture treatments. At the same time, it assures a finish having the durability and washability that are characteristic of lead and oil paint.

Many advantages... White-lead and oil plastic paint is easy to mix, tint, apply and texture. It is mixed of materials the painter carries regularly in his shop—Dutch Boy white-lead, dry-whiting, Dutch Boy

The texture shown here, achieved by use of a straight edge, is well adapted to a room designed under Spanish influence.

flattening oil and drier. It is tinted in the usual way with colors-in-oil. It is applied with a paint brush, remaining workable on the wall for about an hour and thus permitting the handling of large wall areas conveniently. It can be textured with a sponge, paint brush, whiskbroom, graining comb and in many other ways.

Applied today, a "plastic lead" finish is ready for glazing tomorrow. It sets up sufficiently overnight to take a glaze properly. Many beautiful glazed effects are possible. However, glazing is not necessary in order to produce a washable finish with white-lead and oil plastic paint. By itself, this

plastic paint can be used to give a complete finish and one which is thoroughly washable.

Write for more information.

For further information about white-lead and oil plastic paint and illustrations of various textures, write to our Department of Color Research and Decoration for the booklet "White-Lead and Oil Plastic Finishes." Address your inquiry to our nearest branch.

LEAD CAMES

Another product of National Lead Company is lead cames. The line includes cames for every type of stained glass work and we make special cames to architect's specifications. Write for catalog.
