Mr. Al Zirkes
Manager, Commercial Sales
Trapelo Division/West
2030 Wright Avenue
Richmond, California 94804

Dear Mr. Zirkes:

We are shipping 12 soil cores by air freight, in two separate cartons. The cores are identified as Sample #345 - AI, AII, BI, BII, CI, CII from Norway, (description of sample enclosed) and Sample #346 - one through six from Peru. They are to be analysed for lead abundance in the top and bottom of each core and for Pb 206, Pb 207, and Pb 208 ratios in the top and bottom of each core. Please send the results to: Dr. G. J. Stopps, E. I. du Pont de Nemours and Company, Haskell Laboratory, Elkton Road, Newark, Delaware 19711.

Sincerely yours,

Martha McLaughlin
