1943	1944	1945	1947	1948	1952
OCF decides to <u>not</u> mix asbestos and fiberglass so it won't smear fiberglass with the known hazards of asbestos.	A Pipecover becomes sick with asbestos. (Baumgardner) OCF concerned he may be sick from their fiberglass.	#4973 Asbestos Fibers: "Snakebite, penetrate lung and cause havoc"	OCF recognizes the potential hazard from dust in their insulating cement operation.	#232 Kaylo capable of producing asbestos and should be handled as hazardous dust.	Study on Kaylo determines that every precaution should be taken to prevent inhaling dust.
#236 Mixture of quartz and asbestos "ingredients" for first class hazard.					

1953	1955	1956	1957	1958	1959
OCF becomes distributor of Kaylo.	Business Agent in New Jersey sick - 100 to 1 odds from asbestos.	OCF warned that asbestos causes cancer. <u>Decide not to tell customers or union.</u>	#181 Eleven asbestos workers die.	AETNA published report days after OCF buys plant finding dangerously high levels of dust in plant.	Plantworkers getting sick at OCF Kaylo plant.
		#4314 OCF was told asbestos "well incriminated as a carcinogen".			
		#4341 OCF dislikes "tenor" of letter, "certainly nothing we could show customers or a union".			
		#4349 Kaylo brochure: "Pleasant handling, non-irritating, non-toxic nature make it a well-liked worker's material".			
		OCF getting sued.			

1962	1963	1964	1965	1966	1967
West Coast applicators get sick and file work comp claims against OCF.	#556 Kaylo contains asbestos which causes asbestosis...leads to cancer.	#1345 JM Warns #4945 Dr. Seilkoff publishes JAMA article on asbestos exposure.	#4316 Kaylo "prof- it leader" "Damn proud... we intend to stay there!"	#559 One fiber can cause cancer...reason to question TLV.	OCF goes to NIMA meeting where doctor warns of asbestosis and increased cancer risk (3 fold). Recommends worker education programs.
#4334 Asbestos advantage: low cost Disadvantage: asbestos.		Dr. Seilkoff study "startling...high incidence of cancer".	#531 JM labeling puts pressure on industry... negligent manufacturers may face suits... amounts requested usually sizeable.	#536 "Enough smoke to know a fire is involved".	#543 Do not accelerate asbestos replacement program ...conducting a "low gear" to find substitutes... "D-Day" industry may be forced to remove asbestos.
Marketing schemes to increase market share.				#5657 Forms NIMA "Health and Safety Committee" "to combat adverse opinions" of health hazards.	
Multitemp (asbestos free) discontinued because low gross profit margins (1969)			#4318 "Present concern is to find some way of preventing Dr. Seilkoff from creating problems and affecting sales.		#5095 Student paper: Asbestos causing cancer is proprietary info - "X" out.
"Ludox" rejected because of cost.					#5113 Government will probably "blow the whistle" on asbestos in the future.
					#4443 Four substitutes for amosite available, asbestos is low cost, but drawback is health hazard.

1968	1970	1971	1972	1973	1974
#849 Kaylo brochure has "benefits" section but not "risks".	#3929 V.P. "Are you saying we have to do this now?" (Warr) "Naturally would like to delay as long as possible".	#5544 Describing products as containing asbestos raises "red flags" gets customers thinking asbestos, describe product as reinforced with inorganic fibers.	#5025 Mixing "Asbestos-free Kaylo" with asbestos.	OCF begins selling asbestos-free Kaylo upon request.	#4928 "Oh joy, oh joy...just got rid of the last of the damned asbestos".
#4310 Tompkins case (1966) "Asbestos was well documented and known during entire 25 years he insulated".	#5161 TLV does not prevent disease.		#4333 "Probing into a very sensitive area...not sure how much information OCF wants to release".		
#548 Asbestos causes cancer, because of "adverse publicity, possible court actions and protection of our position in market" necessary to eventually remove asbestos.		OCF decides to warn its own employees of asbestos. First draft of presentation warned of cancer and the need to quit smoking. X'd out. Cancer never again mentioned in later drafts or presentation.	OCF recognizes itself as being the #1 seller of asbestos calcium silicate products in the USA. Johns-Manville close second with 2/3 total productivity out of OCF & JM.		
Dr. Seikoff publishes JAMA article on smoking, asbestos and cancer.			Customer in Japan requests info on asbestos. Refer to Medical /Legal Deptis. Not sure how much info OCF wants to release.		

1978	1979	1991	199X
#4961 Newspaper articles contained information which employees were not previously aware of...employees first told of asbestos causing cancer (lung, G.L., and Meso - family members at risk).	#5109 Asbestos still in products.	OCF Doctor con- fessing.	OUR CLIENT IS SICK FROM THE OCF ASBESTOS.
