Good morning Karen and thank you for the heads-up and the great review. I'll make sure I pass it on to the pesticides program folks.

Best, R.,

Hi Robert,

My name is Karen Thompson and I'm the lead editor of InsectCop.net, a mosquito and insect control advice blog.

When researching information on mosquito control I stumbled upon EPA's article on Controlling Mosquitoes at the Larval Stag (URL: <https://www.epa.gov/mosquitocontrol/controlling-mosquitoes-larval-stage>) and it's one of the best I've seen on the subject. So when I decided to create an infographic on how to protect yourself against mosquito bites, I used this article as one of my sources.

You can view the infographic here: <https://insectcop.net/how-to-protect-yourself-against-zika/>

I would love it if you take a look at my infographic and let me know what you think. Also feel free to share it on your site or social media. Thanks for taking the time to read my email and have a good day!

Best,
Karen Thompson
