

DEPARTMENT OF LABOR AND INDUSTRY

HARRISBURG

THE SECRETARY

October 6, 1924

Dr. Cecil K. Drinker,
Department of Physiology,
Harvard University
School of Public Health,
55 Van Dyke Street,
Boston, Massachusetts

My dear Doctor Drinker:

Your letter of October third has just come to hand. Thank you for the permission you give for us to use the material on lead poisoning which has appeared in the "Journal of Industrial Hygiene".

I am glad to learn that a monograph comprising all of the studies in lead poisoning is to appear shortly. Your advice to delay until the monograph appears is very good and I shall instruct Doctor Bricker accordingly.

Sincerely yours,

Royal Meeker

ROYAL MEEKER,
Secretary of Labor and Industry.
