Ryan,

Happy Friday! It was so great seeing you the other night at Cap Grille! Again, congrats on your new-ish role at EPA. I feel confident knowing things are in your hands :)

I'd love to connect your office/boss with my client Minova. They're based in Georgetown, KY, and develop mining products (ceiling stabilization, ground control/stabilization for coal and natural gas lines). They were one of the first to develop ventilation products before they were mandated. They're an international leader in the field and because of their innovative approach, and they're expanding. As I mentioned, their President, Michael Portwood, wanted to lead an event with Georgetown College to give esteemed alumni, Director Pruitt, an award. Your staff didn't think this was possible, but as we discussed there's a possibility of getting Director Pruitt to visit their facility to see what responsible and proactive companies like Minova are doing to improve the energy industry.

Let me know what additional information I can provide. I should note that Michael is also on the board of UK's Center for Applied Energy Research (CAER), which Dir. Pruitt visited a few months back.

Again, it was great seeing you.

Best,
Jordan
