may have come to your attention in the 1940s?

A I don't have any. I don't remember anything that came up.

Q You don't remember discussing the matter in the 1940s?

A No.

BY MR. SMITH:

Q In this memorandum, Mr. Ames on page 2 talks about the health program of Owens-Corning.

It says, our health program has been built on these premises. And he lists five things.

A These are the lists.

Q Our health program has been built on these five things.

Number one, find out the facts. Our files have been centralized, complete related data have been assembled on insurance experience, investigations have been carried out and then he names several people that have been involved.

Do you agree that the first tenant of an effective health program would be for the company to
